UV-C & OZONE TECHNOLOGY
FRESH AIR + ELIMINATION OF BACTERIA

HBC system®

It has never been more important to ensure clean air in all areas where people are present and especially where the risk of disease spreading is high, such as vehicles with several users and passengers.

The OZONE unit from HBC system is not only combating odour nuisances but also sanitizing for mold, bacteria, viruses in cars, caravans, boats and rooms.

Utilizing the patented UV-C & OZONE Technology you can now permanently eliminate and remove any unpleasant odours - without the use of chemicals. The odour does not return, unless the pollutant is still present.
