SPRAY GUNS FOR MIX AND AIRLESS EQUIPMENTS

Xtreme Mix

HIGH PRESSURE MIX SPRAY GUN

High performance. Saves paint and reduces mist. Perfect for the latest water-based paints for wood and industrial purposes.

Code	Version
35130601	[11/40]
35130602	[13/40]

PSAM104

AIRLESS SPRAY GUN

High pressure airless spray gun recommended for pneumatic and electric airless systems not exceeding a working pressure of 250 bar.

Does not include rotating head and nozzle

Code	30170103
------	----------

PSAM107

AIRLESS SPRAY GUN

High pressure airless spray gun for professional use. Pressure: up to 400 barr. Extremely robust and durable.

Does not include rotating head and nozzle

Code	30170101
------	----------

PROFESSIONAL TURBINES

TURBO3000

TURBINE

PRO

High performance HVLV autonomous tool. Minimum mist. Recommended for the application of dyes, paints, clearcoats, primers, textured products and cast iron effect paint.

Code	30640201
------	----------

TURBO2000

TURBINE

PRO

Autonomous turbine equipment for all type of industry, with a lower of 1,400 w. Excellent atomization. Ideal for painting and assemblies works.

Code	30640301
------	----------

AEROGRAPHIC FULL EQUIPMENTS

6110 INOX

FULL EQUIPMENT

10 liters deposit capacity. Upper outlet pot, double regulation and hand mixer. Maximum working pressure: 4 bar. Ideal for Industrial bodyshop and Marine industry.

The full equipment includes: 6110 INOX pressure pot, 4100 Xtreme 1.20 [XT01B] spray gun and and 6 m. air and product hoses.

Code 10540799

612

FULL EQUIPMENT

Pressure pot. Body and lid in aluminum. Deposit capacity of 2,5 liters. Superior product output and pressure regulator.

The full equipment includes: 612 pressure pot, 4100 Xtreme 1.20 [XT01B] spray gun and 1,7 m. air and product hoses.

Code 10540899

DM1/300

FULL EQUIPMENT

Double Membrane Pump. 30 L. For finish and primers. High precision product regulator. Anti-pulsation system and double paint filter. Lacquers, clearcoats, basecoats, enamels. Medium viscosity products.

The full equipment includes: DM 1/300 pump, 4100 Xtreme 1.20 [XT01B] spray gun and and 6 m. air and product hoses.

Code 30920599

DM1/400

FULL EQUIPMENT

Double Membrane Pump. 40 L. High production. It can be used with several spray guns at once. There is a special version for abrasives. Clearcoats, dyes, clears, ceramics, basecoats and glues. Basecoats, primers and, in general, medium viscosity products.

The full equipment includes: DM 1/400 pump, 4100 Xtreme 1.20 [XT01B] spray gun and and 6 m. air and product hoses.

Code 30920499

MIX FULL EQUIPMENTS

RAIDER 260 mix RAIDER 160

FULL EQUIPMENT

The Raider range has been designed and built for the needs of small and medium industries that work with metal and wood. Low air consumption. Reduced system maintenance. Self-adjusting packing. Ratio 16:1
Ratio 26:1

Full equipment. It includes: Raider 160/260 mix, Xtreme Mix spray gun and 5 m. air and product hoses.

Code	Version
30951599	Raider 160
30931799	Raider 260 mix

MACK 150

FULL EQUIPMENT

Mix pump. Ideal for finishes in high production, easy to use and very robust. Reduced maintenance and self-adjusting packing system. Clearcoats and waterborne paints, lacquers, basecoats and primers, enamels and antioxidants. Ratio 15:1

Full equipment. It includes: Mack 150 pump, Xtreme Mix spray gun and 5 m. air and product hoses.

Code 30931999

MACK 320 mix

FULL EQUIPMENT

Pneumatic mix pump for high speed and production. Easy to use and high robust. Clearcoats, lacquers, fillers, primers, enamels, synthetic paints. Generally, medium viscosity products. Suitable for waterbase products. Relación 32:1

Full equipment. It includes: Mack 320 Mix pump, Xtreme Mix spray gun and 5 m. air and product hoses.

Code 30932099

PNEUMATIC AIRLESS FULL EQUIPMENTS

RAIDER260

FULL EQUIPMENT

Medium Production. Portable, silent and low air consumption. Easy-to-use. Reduced maintenance and self-adjusting packing system. Ideal for clearcoats, lacquers, basecoats, enamels, light primers. Ratio 26:1

Full equipment. It includes: Raider 260, PSAM 104, rotating tip, rotating head and 10 m. product hoses (security).

Code 30931799

MACK320

FULL EQUIPMENT

Airless pump. High performance. Ideal for medium-high production and waterborne clearcoats. Reduced maintenance and self-adjusting packing system. Clearcoats and waterborne paints, lacquers, basecoats and primers, enamels and antioxidants. Relación 32:1

Full equipment. It includes: Mack 320, PSAM 104, rotating tip, rotating head and 10 m. product hoses (security).

Code 30932098

MACK400

FULL EQUIPMENT

High production Airless pump. Tungsten Carbide valves. Enamels (polyurethanes, epoxys), anti-corrosive primers, intermediate layers and thick, chlorinated rubber, bituminous, mold release,...

Full equipment. It includes: Mack 40/60, PSAM 107 rotating tip, rotating head and 10 m. product hoses (security).

Valid for water-based product applications. Ratio: 40:1

Code 30932299

ELECTRIC AIRLESS FULL EQUIPMENTS

ATLANTA500

FULL EQUIPMENT

Electric membrane pump. High-quality paints. Medium production. Application of plastic paints, primers, varnishes, chlorinated rubber, waterproof.

Full equipment. It includes: Atlanta 500, PSAM 104, rotating tip, rotating head and 10 m. product hoses (security).

Code 30940899

ATLANTA200PLUS

FULL EQUIPMENT

Electric membrane pump. High-quality paints. Medium production. Application of clearcoats, undercoats, primers, enamels and varnishes. In general, medium viscosity products.

Full equipment. It includes: Atlanta 200 Plus, PSAM 104, rotating tip, rotating head and 10 m. product hoses (security).

Code 30941299

ATLANTA800

FULL EQUIPMENT

Electric membrane pump. High-quality paints. Powerful and robust for continuous tasks with 1 or 2 spray guns. Toolbox. Large size rear wheels and front steering for on-site transport.

Full equipment. It includes: Atlanta 800, PSAM 104, rotating tip, rotating head and 10 m. product hoses (security).

Code 30940999

PERSONALIZED SOLUTIONS

V4 Buses: 1.0 to 2.8

AUTOMATIC SPRAY GUN (STANDARD VERSION)

High production conventional spray gun. Incorporates double fan regulator and product regulator.

Consult special versions V series:

- Abrasives
- Corrosives
- Robot

V5 HVLP Buses: 0.8 to 1.8

AUTOMATIC SPRAY GUN (STANDARD VERSION)

This is the ideal tool where very high application speed along with significant reduction of product consumption are required.

V6 EPA Buses: 0.8 to 1.4

AUTOMATIC SPRAY GUN (STANDARD VERSION)

EPA spray system with a minimum product transfer of 65%. Maximum finish quality with waterborne or solvent-based products. Works at very low pressures.

V7 Mix

AUTOMATIC SPRAY GUN

The V7 Mix is a high production low pollution spray gun. High paint pressure mix system 30-150 bar. Spraying of clearcoats, UV paints, etc.

MiniV

AUTOMATIC SPRAY GUN

Automatic gun, small size and high precision. HVLP, EPA and Round jet high transfer aircaps.

Buses: 0.3 to 1.2

AIR COMPRESSED TREATMENT

479 PLUS

PURIFYING FILTER WITH REGULATOR AND PRESSURE GAUGE

Large air flow, highly reliable regulating system, high quality pressure gauge, the best materials. Produced from a solid aluminium block. Semi-automatic drain system. The most compact solution for the small workshops, industry or priming and preparation areas.

Code	Version
10730401	1/2"
10730402	3/8"
10730403	1/4"

970 PLUS

PURIFYING FILTER WITH LUBRICATOR

The virtues of the regulator-filter 479 is now united to a lubricating element, setting itself apart as specific workshop equipment. It supplies clean, lubricated air to all your tools. maximum reliability and productivity in the most compact package.

Code	Version
10750301	1/2"
10750302	3/8"
10750303	1/4"

5000

PURIFYING FILTER WITH REGULATOR AND PRESSURE GAUGE

Valid for highest quality finishes. Its NEW VESSEL is tougher and more protective. Semi-automatic draining system. Minimum pressure loss. Special for waterborne and HS paints. Double outlet. Air flow: 2.500 L/min.

Code	Version
10730204	

FRLLine

PURIFYING FILTER WITH REGULATOR AND PRESSURE GAUGE

Air filtration and regulation for machinery in general where supply of clean air is required.

Code	Version	Connection

XTech 300

HIGHLY PRECISE AND SMOOTH

Double effect professional airbrush, that offers a fine pulverization and a good precision. 5 c.c. deposit to use any paint quantity, but maintaining the advantage of an easy cleaning and color change.

Code	Version
17410701	0.30

XTech 400

NEEDLE CLOSING AND PACKING MADE OF TEFLON

Double effect professional airbrush, that offers a fine pulverization and a good precision. 9 c.c. deposit to use any paint quantity. Ideal for murals for a bit thicker colors.

Code	Version
17410801	0.30

XTech 500

SUCTION DEPOSIT

Double effect professional airbrush, that offers a fine spraying from a high precision to a large spray pattern. 22 c.c. suction deposit with fast change system. Ideal for changing color in an instant.

Code	Version
17410901	0.30
17410902	0.50

JUNIOR 140

DOUBLE EFFECT AIRBRUSH

Double effect airbrush for taking your first steps in the world of feathering. Comes with a full accessories kit.

Code	Version
25410104	

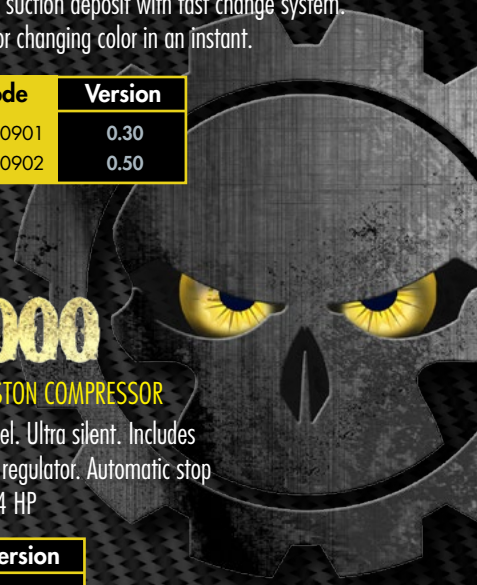

GP2000

TWO CYLINDER PISTON COMPRESSOR

Minimum noise level. Ultra silent. Includes filter and air outlet regulator. Automatic stop switch. Power: 1/4 HP

Code	Version
10620801	220V/50Hz
10620802	110V/60Hz

BREATHING SYSTEMS

4240

COMPLETE BREATHING EQUIPMENT

Complete breathing equipment which includes: belt, pocket regulator and coalescent filter to remove low levels of moisture and oil. 10 meters of hose and safety plugs, 1,5 meter of hose spray gun outlet.

The unit conforms to BS EN 1835, with a protection factor of 40. EC Certificate Number 58459, issued by BSi Product Certification.

Code	Version
15830101	

MP300

BREATHING MASK

Mask with double charcoal filter against organic and solvent fumes. Facial housing of thermoplastic rubber. Optimum sealing and comfort. Elastic tape fastener.

Approved: FCB-9086 A y EN 140

Code	Version

SuperKIT PROFESSIONAL KIT

Paint spray gun with stainless steel nozzle. Petroleum spray cleaner con 1 L deposit, Highly accurate and durable inflator. Metallic aircaps in P1 and S1.

Code	Version
20160103	

474 SPRAY GUN FOR RETOUCHING

Gravity Spray gun that due to its reduced dimension becomes ideal for shadings, little retouches and/or painting of small parts. It includes a 125 c.c.

Code	Version
10151701	0.80
10151702	1.00

DECORATION & CONSTRUCTION SPRAY GUNS

TURBO 1000

TURBINE

Professional HVLP autonomous tool. Minimum mist. Turbine unit valid for all types of paints, finishes, primers, multi-colours (includes two nozzle combinations as standard equipments). Gun holder, cable reel and accessory holder. Includes removable air filter.

Code 40000318

Classic SMOOTH

GRAVITY SPRAY GUN

Spray gun with 5L deposit and handle. Ideal for the application of viscous products frequently used in decoration, such as plastics or multicoloured. Non-stick coating in the body in order to make cleaning easier. Empty weight: 1.100 g Air consumption: 280 L./min. at 3,5 bar

Code Version

20141701	2.00 [25]
20141702	2.50 [36]

PREMIUM 429N

GRAVITY SPRAY GUN

Product and airflow regulators. High quality 5L paint deposit with handle and removable lid for cleaning. Includes 4.5, 6 and 8 mm. aircaps. Trigger lock system for ease of continuous use. Product anti-pack system. Non-stick coating in the body of the spray gun for ease of cleaning. Air consumption: 170 L./min. at 3,5 bar

Code 10140201

Classic GOTELÉ

GRAVITY SPRAY GUN

Product and airflow regulators. With air inlet shut-off valve. Includes 4.5, 6 and 8 mm. aircaps. 5L paint deposit with handle. Special for stone paints, gotelé and viscous products.

Code 10140202

Classic LUX

PRESSURE SPRAY GUN

Ideal for the application of mid to low viscosity paints. Valid for solvent-based paints. Light, robust and versatile. Low air consumption. Stainless steel nozzle and needle.

Code Version

20151201	1.40 [21]
20151202	1.80 [21]
20151203	1.80 [27]

4022

PRESSURE SPRAY GUN

Gotelé spray gun. Incorporates product coupling for flange and for 3/4" thread. Stainless steel fluid nozzle and needle. Air consumption: 200 L./min. at 3,5 bar. Recommended pressure pots: Premium 30/60.

Code Version

10151601	2.80
10151602	3.20

610

FULL EQUIPMENT

Full equipment. Includes 610 pressure pot, Classic lux pressure 1.40[21] and 5 m. air and product hoses. Capacity 10 L. Steel body and aluminium lid. Double regulation. Top outlet. Valid for low and medium viscosity paints.

Code 10540798

CLASSIC 30INOX

FULL EQUIPMENT

Complet equipment for gotelé and rough finishes. 30 L. pressure pot. (two bags of 25 kg. of paste). With handlebar, foldable for transport. Bottom-mounted product outlet 3/4". Maximum working pressure: 7 bar. Empty weight: 31Kg.

Includes Classic 30 pressure pot, 4022 spray gun and 5 m. air and product hoses.

Code 20530703

WORKSHOP COMPLEMENTS

48L
VACUUM CLEANER

Professional vacuum cleaner. Top quality materials. Stainless steel deposits. Includes tool carrying grid. Includes dust and compressed air hoses and metallic connection for two tools. Can be used with pneumatic and electric tools.

Deposit capacity: 48L
Dimensions: 610x510x990 mm.
Weight: 29 Kg.
Voltage: 220V/50Hz.
Power: 1,100 W
Max. Inlet: 2,400mmH2O
Air flow: 2.8 m³/min

Code 40000285

24L
VACUUM CLEANER

Professional vacuum cleaner, compact and Light. Portable. Stainless steel deposits. Includes tool carrying grid. Includes dust and compressed air hoses and metallic connection for two tools. Can be used with pneumatic and electric tools.

Deposit capacity: 24L
Dimensions: 380x380x700 mm.
Weight: 12.5Kg
Voltage: 220V/50Hz.
Power: 1,100W
Max. Inlet: 2,200mmH2O
Air flow: 2.6 m³/min

Code 40000491

L Range

HIGH PERFORMANCE SANDERS

"L" range sanders have been designed for workshops where high performance and top quality finishes are demanded. Designed for comfortable operation, "L" range sanders are the reference in low vibration and high performance tools.

Code	Version	Oscillation	Application
